

At Vincent's Clubhouse, we believe every individual deserves the opportunity to learn and thrive in a community where they are supported. Our programs are designed to be affordable and accessible; however, we recognize that many families face ongoing financial challenges that can make even modest program fees difficult to manage.

Established through the generosity of Stogie's Cigar Shop, located on historic St. George Street in St. Augustine, this philanthropic initiative helps ensure that financial hardship is never a barrier to participation in the life-changing programs and services offered through Vincent's Clubhouse.

Through scholarship assistance, recipients are able to access opportunities that promote independence, social connection, personal growth, skill development, and overall well-being. Scholarship funds may be used to support participation in a variety of Vincent's Clubhouse programs and services. The scholarship provides peace of mind for families knowing their loved one has access to a safe, supportive environment where they are celebrated for who they are and empowered to reach their full potential.

While the program was founded through the generosity of Stogie's Cigar Shop, its continued success is strengthened by the support of our broader community. Individuals, families, businesses, and community partners are invited to contribute to the Stogie's Family Scholarship Program, helping ensure that scholarships remain available to those who need them most. Every contribution directly supports individuals with disabilities and helps create opportunities.

Through the Stogie's Family Scholarship Program, we are creating a place where everyone has the chance to belong.
